

Re: Late start of Random Quiz-3

Sir,

I was supposed to give the test at my Grandma's house. So I was travelling to her place after Dinner. I did not estimate the travel time correctly. Also, I needed to connect to the Internet which had some issues. So some time was wasted at the beginning of the test. I thought I was just about 5-8 mins late as I had not seen the time before starting the test.

I will ensure that I am ready before time for the all of the future tests which will be held.
